

Driffield Junior School

INTERNET SAFETY WEEK

As part of our Internet Safety Week we are holding an Online Safety Workshop for parents and carers.

The workshop will take place on Thursday 8th February at 6.00pm in the main hall.

The workshop will be run by Andy Nunn, an experienced ICT expert who has particular expertise in the area of online safety.

This will be a great opportunity to:

- ✓ Find out top tips on how to keep your children safe online
- ✓ Learn more about online gaming, apps, social media and general online safety
- ✓ Ask any questions you may have about online safety, for example, security settings

Many adults feel they are aware of the dangers of the internet and have confidence in their children's knowledge of how to remain safe when online. However, this workshop is an excellent opportunity to get up to date information from an industry expert – keeping parents up to speed is essential in order to keep both yourself and children safe online.

During the workshop we have arranged for crèche facilities in the schools' sports hall. This will be run by DJS staff. To ensure we have correct staffing, we do need to know numbers in advance. Please contact the school by telephone or email to book a place, stating names and ages of children. Thanks.
